← INTERNATIONAL CAMPING

CONFINE ITALIA  SVIZZERA 

The International Camping is located on the edge of the commune of Lavagna Ponte Tresa, on the western shore of the Lake of Lugano or Lake Ceresius, 275 mt. above sea level. The lacustrine area surrounding it, is rather flat with wide tall trees. The climate is extremely mild in Summer and a little cooler in Spring and the first part of Autumn, because of the influence of the Alps. The area is virtually free from strong winds, even though a gentle breeze is rather common (and welcome!) in the warm summer season.

At the International, we are proud to offer to all our guests a peaceful vocation, in wonderful natural surroundings and in a green camping which is really full of trees. Your camping-site is 700 Mt. Far from the centre of Ponte Tresa (a little touristic and commercial town on the Italian-Swiss Border, Canton Ticino) and 500 Mt. far from the village of Lavena (a gorgeous touristic resort on the narrow lake strait which bears the same name) The International Camping has got many facilities and we do our very best to provide everything you need to relax and really enjoy your holiday.

The International Camping is located on the lake shore and our private beach is very quiet, safe and secluded, with a small jetty for boats and dinghies. There are mooring facilities (private buoys are available throughout the year). You can do any watersports. The places (single camping areas) are comfortable and equipped with electricity (according to E.C.C. regulations), private parking space for authorized vehicles

We have four-bed bungalows, full furnished and complete with gas cooker, fridge, veranda and car-park. Our Camping site is truly ideal for families with children. We have built a great new playground with swings, slides and more, all for them (we also have made sure that yours children are safe at all times.
